

# Mint Conversion Information

---

As First American Bank completes its system conversion, Mint aggregation services may be interrupted for up to 5 business days. Mint.com data is stored on Intuit cloud servers. Data is updated with every change and cannot restore data to a previous point in time.

For a successful account update, do not log into your Mint.com until after August 22.

During this time, the Mint.com server will automatically make the system conversion for your activated accounts. If you login into Mint.com during this time, you may see duplicate accounts, or an error displayed. Please do not attempt to change the status or make any changes in Mint.com during this time. After August 22nd, the accounts should reconcile showing your transaction history available.

In the event your accounts do not display current transactions after August 22, you may log

back into Mint.com and click refresh  to update the account. After the download completes, click the Transactions tab to view up to 90 days of transaction history.
